"Anuugacchati Pravaha"
which means - Go with the flow.
I am an explorer, exploring the world, reaching out doing exciting things, learning about newer technologies, finding new opportunities, and most importantly not stoping and flowing all the time.
As a Software Engineer currently I am trying to fit myself into the corporate culture and always ready to accept all the challenges to use my technical skills.

Jobs

Associate Engineer
NCS Group
April 2023 - Current

Apprentice
Synechron
December 2022 - March 2023

As an intern at Synechron, I gained valuable experience in using the Spring Framework to develop web applications. During my time there, I had the opportunity to apply my skills by creating a dummy site for the internal company management ERP portal.

In this project, I leveraged my knowledge of Spring to design and develop the site's back-end functionality, including the database schema and API endpoints. I also used various front-end technologies such as HTML, CSS, and JavaScript to build the user interface.

Throughout the project, I collaborated with other members of the development team to ensure that the site met the company's requirements and was user-friendly. Additionally, I learned important skills such as version control using Git and project management using Agile methodologies.

Overall, my internship at Synechron provided me with a hands-on experience in using the Spring Framework to develop web applications, as well as exposure to industry-standard tools and practices.

Customer Support Executive
Concentrix
October 2020 - January 2021

At Concentrix, for the first time, I got exposed to the corporate culture. I got to know about a lot of things while working there like, the lifestyle of people nowadays, the importance of English and communication skills while dealing with anyone in this corporate culture, and most importantly the importance of politeness. I improved myself a lot, or I can say the environment at Concentrix was a very important factor in my personality development.

At Concentrix, I was supposed to get in touch with the customers of White Hat Jr. who are facing problems while joining the online coding class.

Education

Bachelor of Engineering - BE, Information Technology

Dhole Patil Education Societys Dhole Patil College of EngineeringPune

June 2018 - May 2022

Top skills

.NET Core - Proficient
